ZARMEEN GARDENS REAL ESTATE ERP · DEVELOPMENT GUIDE

Development, stock & assets

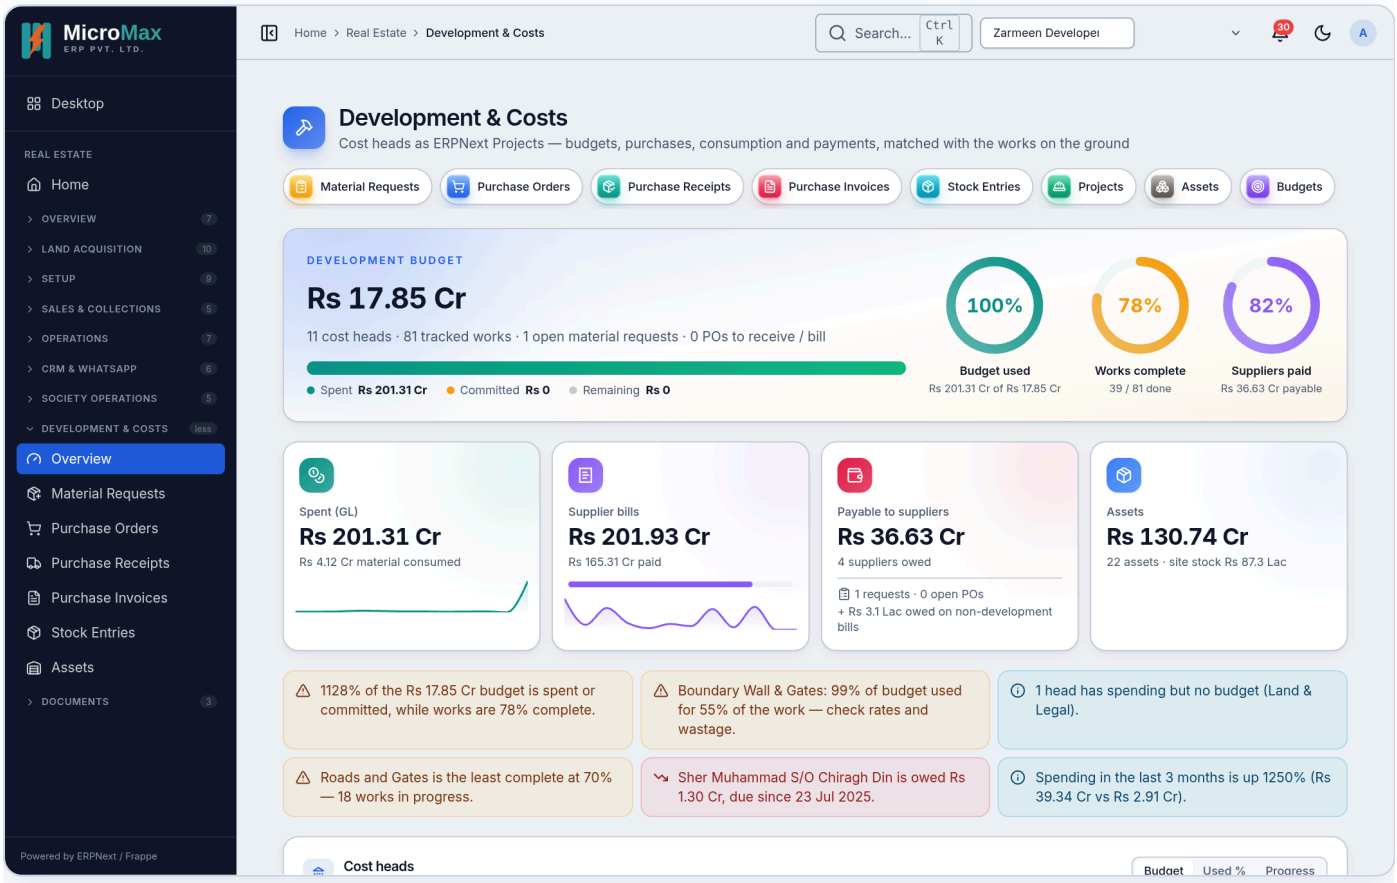

Development cost heads as ERPNext Projects with budgets: material requests, purchase orders, receipts into the site store, issues to cost heads, contractor bills, assets with depreciation — and the land cost from Module 0.

1 · Budgets	2 · Buying	3 · Stock	4 · Assets
Cost heads as projects	Request, PO, receipt	Issue to head	Depreciation

Who: Projects Manager, Accounts, Purchase and Stock users.

1 Budget vs actual

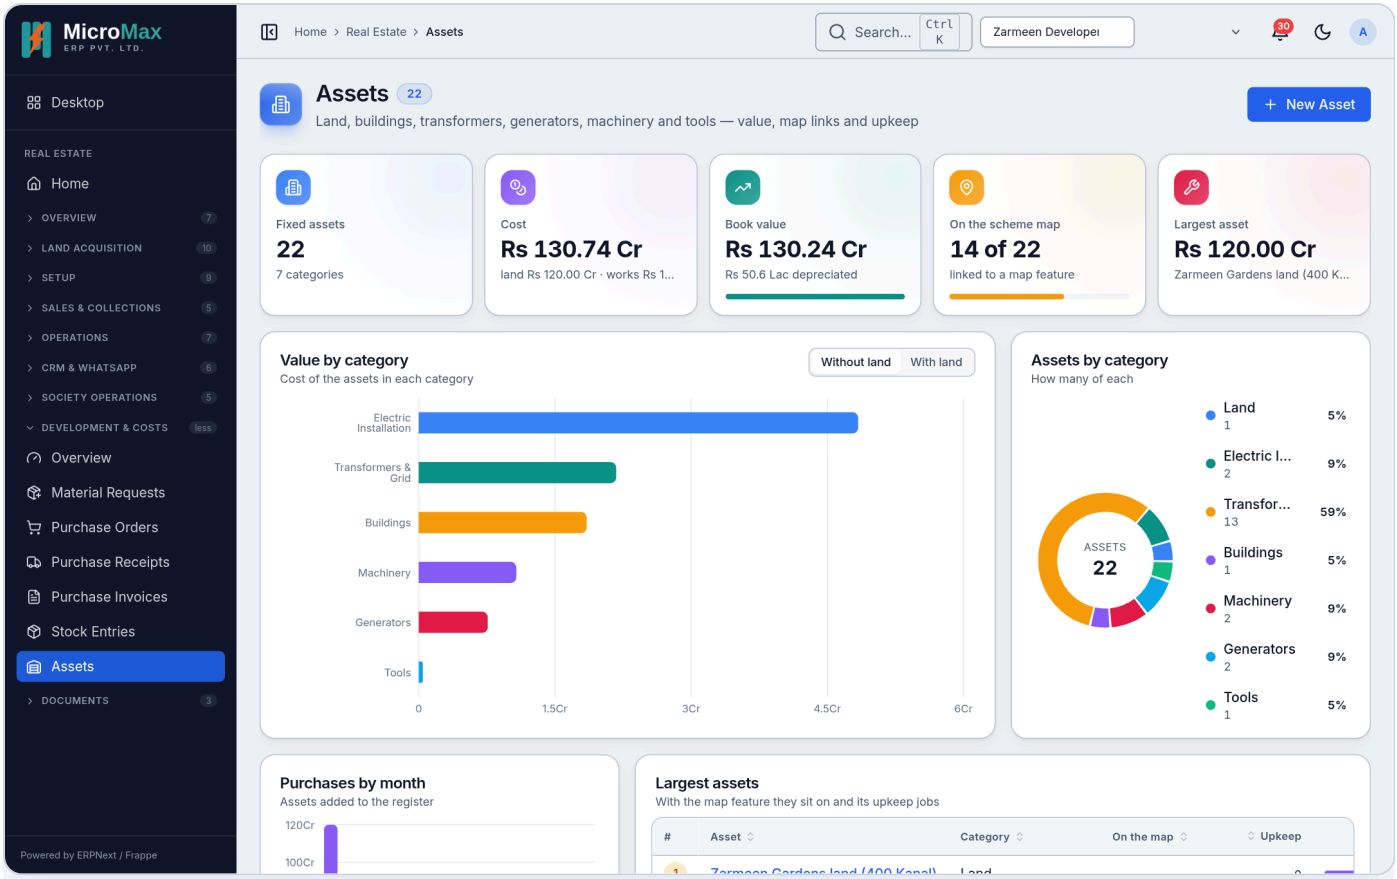

1. **Development & Costs** → **Overview**: each head's budget, actual, committed, paid and payable, next to the works on the map.
2. The **Land & Legal** head counts land being bought (Land Under Acquisition) and capitalised land cost.

Development overview — budgets, progress and spending.

2 Assets

1. **Assets**: land, buildings, transformers, generators, machinery and tools, linked to map features and depreciated by category.

Assets by category with book value.
