ZARMEEN GARDENS REAL ESTATE ERP · OPERATIONS GUIDE

Post-sale operations — transfers, cancellations, merges, commissions

Changes after a sale, each through an approval workflow with its accounting: transfer (no-dues check and fee), cancellation and refund, re-allotment, plot merge, and agent / dealer commissions.

1 · Request
Wizard with checks

2 · Approve
Sales Manager

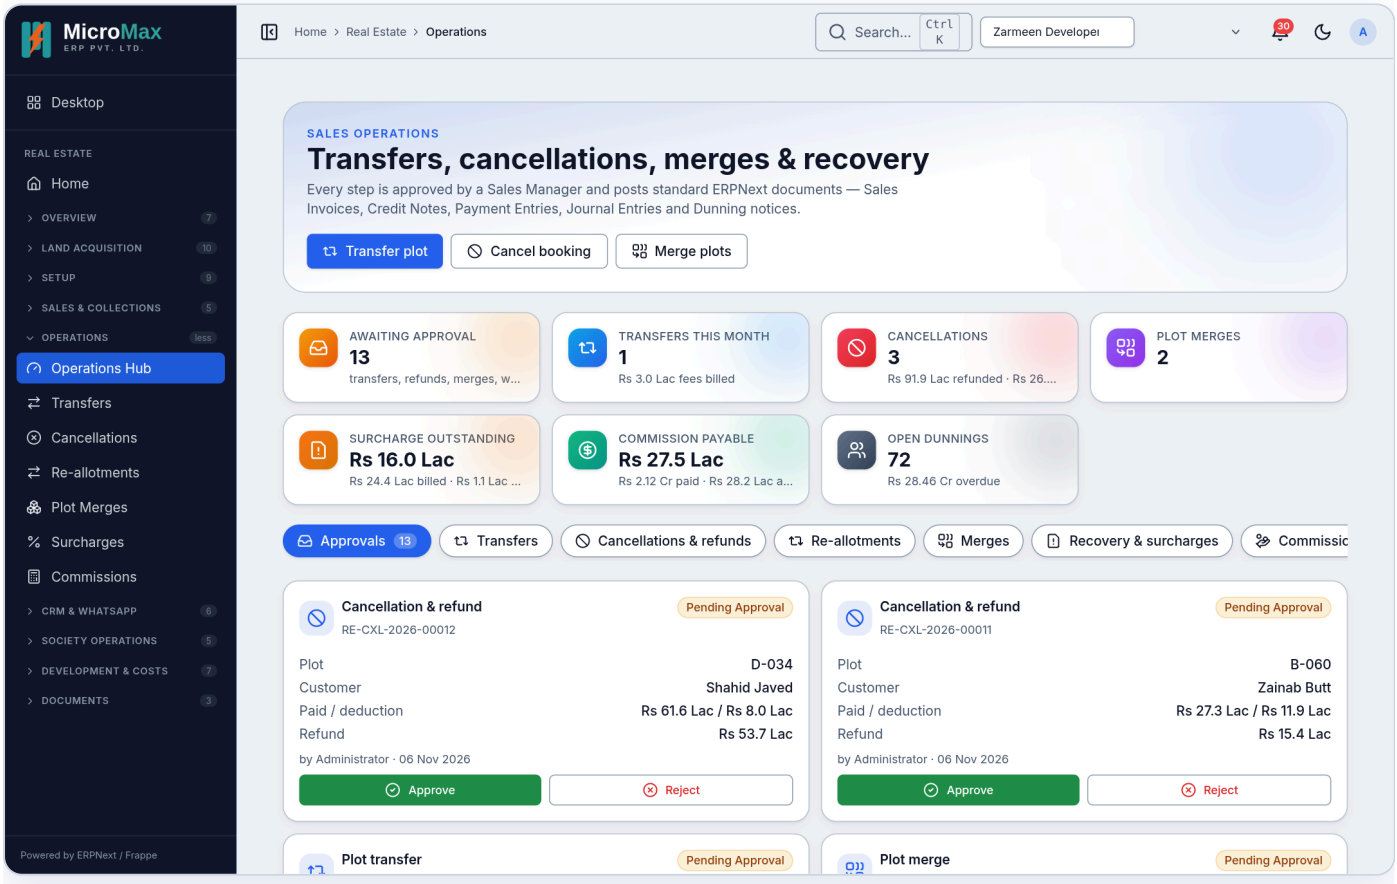

3 · Post
Fees, credit notes, refunds

4 · Commissions
Payable at 25% paid

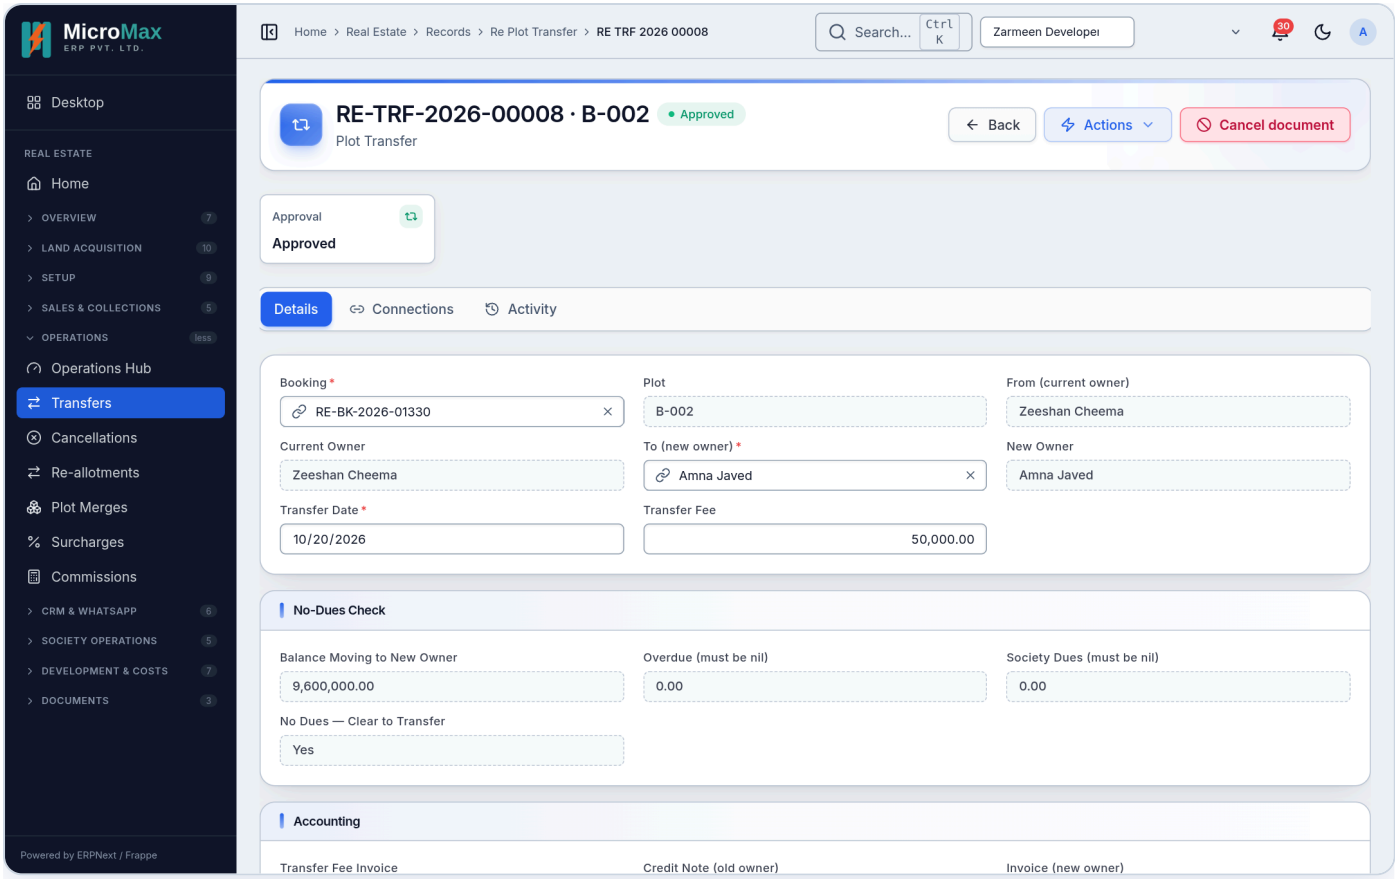

Who: Sales Agent / Sales User (request), Sales Manager (approve), Accounts (refunds, payouts).

1 The operations hub

1. **Operations Hub**: transfers, cancellations, merges and recovery in one place, with the approvals waiting.
2. **Transfer plot**: the wizard checks for overdue installments and society dues, then posts the transfer fee, closes the seller's balance and invoices the buyer.
3. **Cancel booking**: deduction 10% of the price (never more than paid), credit notes and a refund; the plot is released for **re-allotment**.

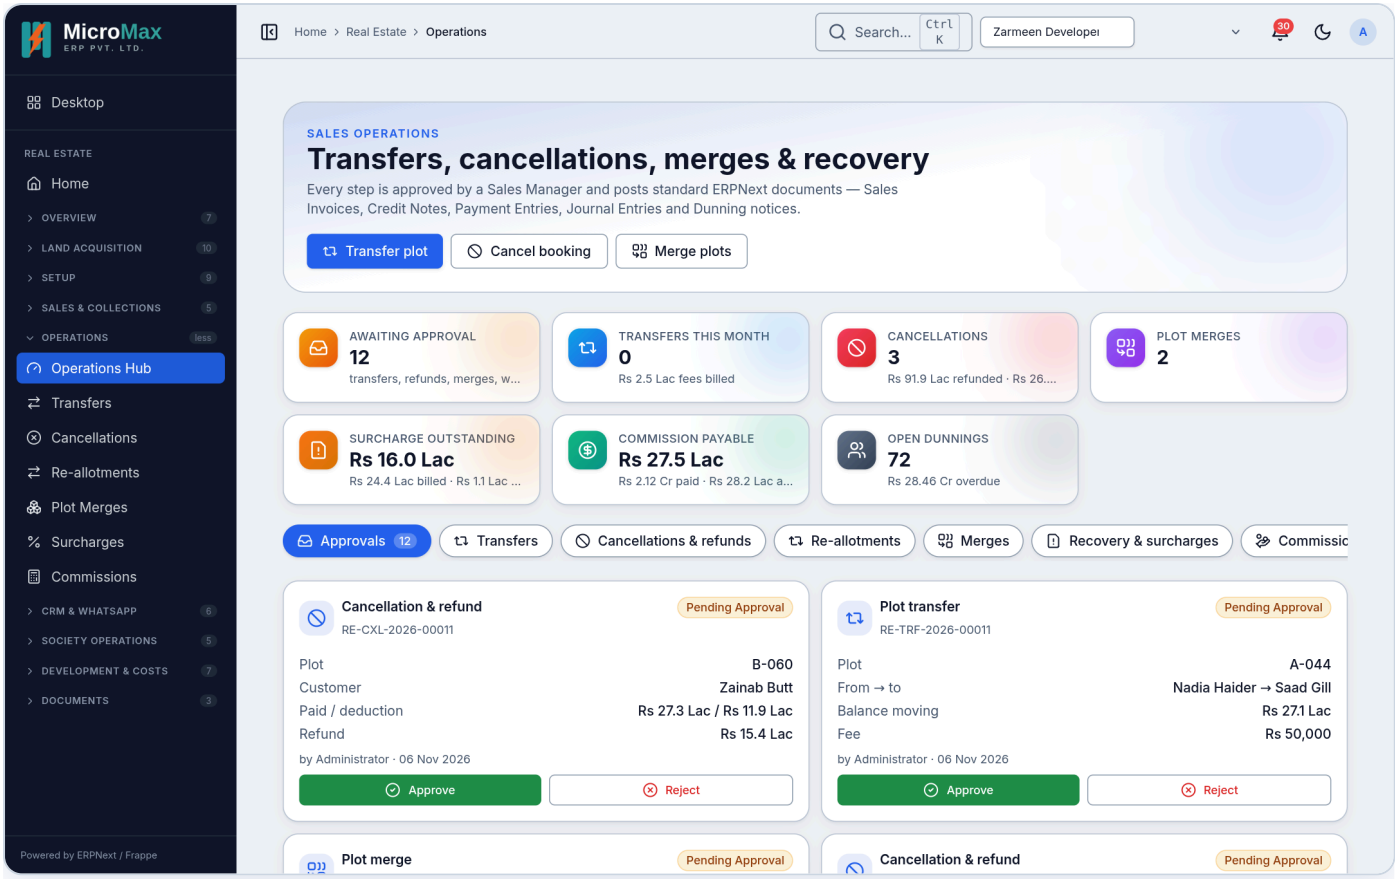

Operations hub — counts, wizards and the approval queue.

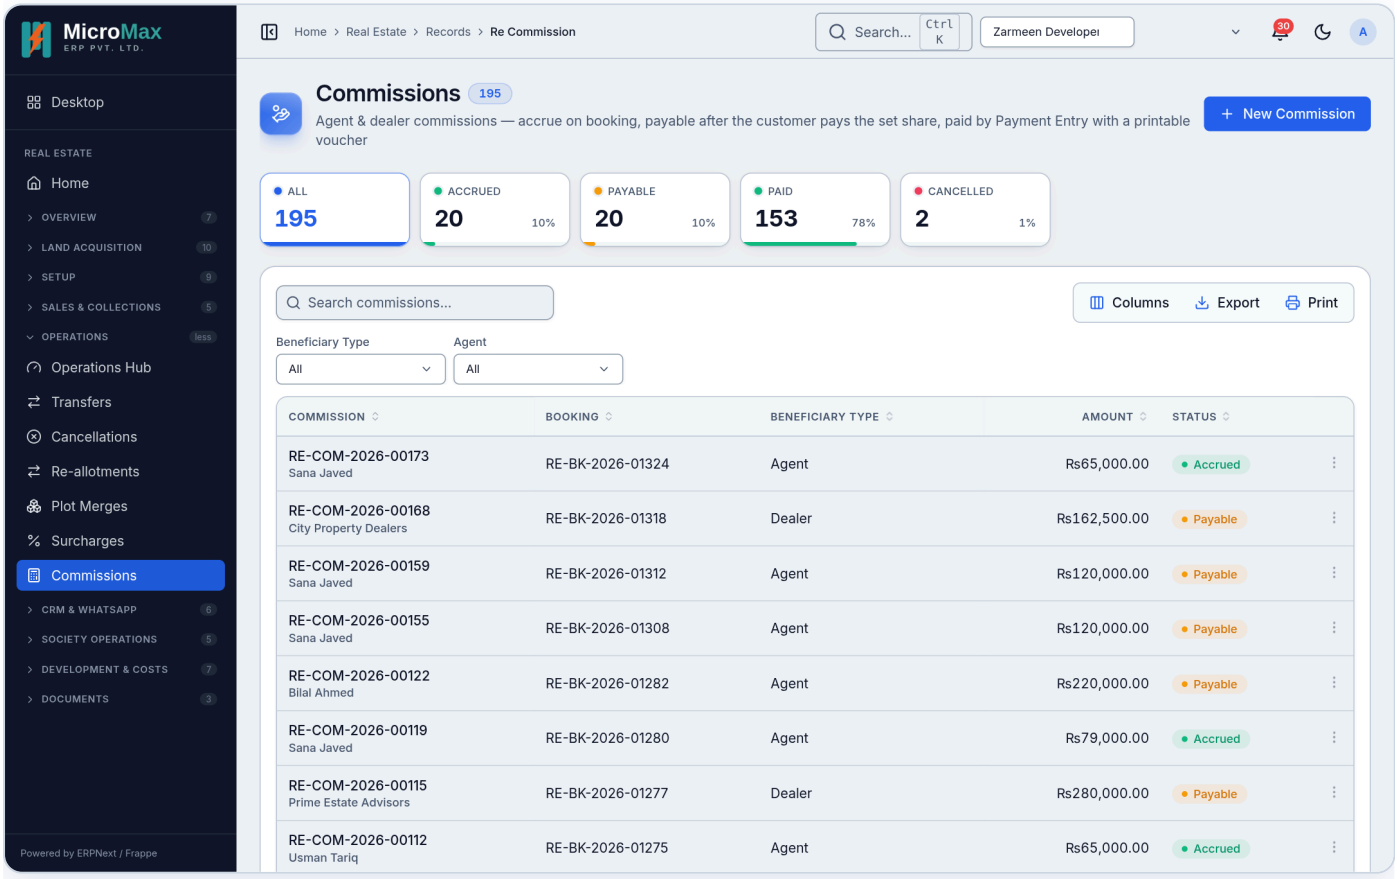

A completed transfer with its invoices.

2 Approvals and commissions

1. Every request waits in **Approvals** until the Sales Manager approves or rejects it.
2. Commissions (agent 1%, dealer 2%) accrue at booking, become payable when 25% is paid, and are paid with a printable voucher.

The approvals queue.

Commissions — accrued, payable and paid.
